

# SONU KUMAR

Full-Stack Developer • React.js | React Native | Next.js | Node.js | Unity 3D

Delhi, India • +91 9709834056 • sonugupta6746@gmail.com • linkedin.com/in/sonu-kumar-3b7072237 • github.com/SonuBuilds • sonubuilds.github.io

## PROFILE SUMMARY

Full-Stack Developer with 4+ years of professional experience architecting and shipping scalable, high-performance web, mobile, and interactive applications using **React.js**, **React Native**, **Next.js**, **Node.js** and **Unity (C#)**. Strong expertise in cross-platform modular component systems, RESTful API design, state management (Redux Toolkit), and real-time cloud services. Proven track record of optimizing application performance, delivering 99.8% crash-free mobile sessions, and leading features across multi-tier software ecosystems.

## TECHNICAL SKILLS

|                        |                                |                          |                           |                             |                          |                       |            |              |
|------------------------|--------------------------------|--------------------------|---------------------------|-----------------------------|--------------------------|-----------------------|------------|--------------|
| Frontend & Mobile:     | React.js                       | React Native             | Next.js                   | Angular                     | Redux Toolkit            | JavaScript (ES6+)     | TypeScript | HTML5 / CSS3 |
|                        | Tailwind CSS                   | Bootstrap                |                           |                             |                          |                       |            |              |
| Backend & APIs:        | Node.js                        | Express.js               | RESTful APIs              | API Architecture            | Third-Party Integrations | JWT & Role-Based Auth |            |              |
| Game & 3D (Unity):     | Unity 3D / 2D                  | C# Scripting             | Game Physics & Collisions | Cinemachine & URP           | Interactive 3D / WebGL   |                       |            |              |
| Databases & Cloud:     | MongoDB                        | MySQL                    | Supabase                  | Firebase Auth               | Firebase Realtime DB     | Cloudflare R2         |            |              |
|                        | Firebase Cloud Messaging (FCM) | Google Maps API          | Git / GitHub              | Postman / Swagger           |                          |                       |            |              |
| Engineering Practices: | Responsive Web Design          | Performance Optimization | State Management          | Agile / Scrum Methodologies |                          |                       |            |              |

## WORK EXPERIENCE

- SPODS Technologies • Front-end Developer | React Native | React | Next** 08/2025 — Present | Delhi, India
- Developing and maintaining the complete **Pick A Pro** marketplace ecosystem including customer web platform, mobile applications, admin operations dashboard, and Partner app.
  - Implemented secure role-based access control (RBAC) and authorization workflows managing permissions for customers, service partners, and administrators.
  - Architected cross-platform applications with React, Next.js, and React Native utilizing modular reusable component libraries.
  - Integrated Redux Toolkit (RTK) for centralized state management, ensuring synchronized data flow across mobile and web platforms.
  - Integrated REST APIs, Google Maps Geolocation services for dynamic provider dispatch, and Firebase Cloud Messaging (FCM) for real-time booking push alerts.
  - Optimized front-end rendering performance, responsiveness, and code quality across diverse mobile viewports and browsers.
- NOYT INDIA • Software Developer** 06/2025 — 08/2025 | Delhi, India
- Managed independent project modules from architectural design to deployment, ensuring delivery ahead of business milestones.
  - Integrated complex third-party REST APIs to extend product capabilities, improve responsiveness, and streamline data exchange.
- 3FITECH COMMUNICATIONS PVT LTD • Software Developer** 02/2025 — 06/2025 | Delhi, India
- Collaborated closely with cross-functional engineering and design teams to build scalable, maintainable production features.
  - Applied clean coding standards, code reviews, and structured debugging to ensure high software reliability and fault tolerance.
- EDUMITRAM PVT LTD • Frontend Developer | React** 11/2023 — 01/2025 | Delhi, India
- Developed high-quality, user-friendly web interfaces for key enterprise clients including Educomp Solutions Limited, EbixCash Pvt Ltd, and Hem Aunty Publications.
  - Elevated user satisfaction and retention by delivering accessible, responsive UI/UX designs and low-latency API integrations.
- SLOG Solutions Pvt. Ltd • Frontend Developer | React** 04/2021 — 10/2023 | Delhi, India
- Reduced software defects by 20% through rigorous debugging, performance audits, and structured testing in Angular and React applications.
  - Mentored students and junior developers in Python programming fundamentals, modern JavaScript, and web development best practices.

KEY PROJECTS (ALL PRODUCTION & LIVE DEPLOYMENTS)

01. Pick A Pro

[\[Live Site ↗\]](#)

– On-Demand Marketplace Ecosystem

4 apps • 99.8% crash-free

- Engineered cross-platform mobile apps and web frontend using React.js, Next.js, and React Native with shared modular component libraries.
- Implemented secure multi-tier role-based authentication (RBAC) via Firebase Auth for Customers, Service Providers, and Operations Admins.
- Integrated Google Maps Geolocation & Places API for automated proximity dispatch, live provider tracking, and dynamic pricing.

Tech Stack: React.js, Next.js, React Native, Redux Toolkit, Node.js, Express.js, Firebase Auth & FCM, Google Maps API

02. PropertyWorks

[\[Live Site ↗\]](#)

– Real Estate Intelligence & Advisory Platform

Full-Stack Advisory • OTP Admin

- Developed full-stack real estate advisory platform and dedicated Admin Panel for managing property projects, listings, leads, and blogs.
- Built responsive frontend architecture with Next.js, React, TypeScript, and Tailwind CSS; engineered OTP-based admin actions and lead capture pipelines.

Tech Stack: React.js, Next.js, TypeScript, Tailwind CSS, Node.js, REST APIs, Lead Management, SEO

03. Memory Caravan

[\[Live Site ↗\]](#)

– QR-Based Digital Media & Keepsake Platform

End-to-End • Secure R2 Streaming

- Architected QR-based digital media platform enabling secure access to personalized keepsake photos and video memories via unique QR routing.
- Designed private video streaming pipeline with Cloudflare R2, short-lived tokens, HTTP Range streaming, and Supabase PostgreSQL.

Tech Stack: Next.js, React, TypeScript, Tailwind CSS, Supabase, Cloudflare R2, Video Streaming, QR Routing

04. UPBScan

[\[Live Site ↗\]](#)

– Blockchain Network Explorer

Real-time visibility • <80ms search

- Integrated high-frequency REST APIs and WebSocket data streams for sub-second block ingestion and real-time transaction updates.
- Engineered deep multi-token tracking for native UPB, USDT (Tether), and UPBP assets with table virtualization across 100k+ rows.

Tech Stack: React.js, Web3 Integration, RESTful APIs, Chart.js, Tailwind CSS, WebSocket Feeds, TypeScript

05. Hem Aunty Publications

[\[Live Site ↗\]](#)

– E-Commerce Publishing Platform

+28% order conversion • 1.1s load

- Engineered dynamic catalog with multi-facet search, subject filtering, author collections, and real-time stock inventory synchronization.

Tech Stack: React.js, Firebase Auth, REST APIs, Redux Toolkit, Tailwind CSS, Payment Gateway

06. SOCIETY — RADHEADDA

[\[Live Site ↗\]](#)

– Community & Matrimonial Platform

15,000+ members • 99.9% uptime

- Developed multi-criteria matchmaking algorithm, real-time messaging, and JWT authentication using Angular and ASP.NET Core.

Tech Stack: Angular, ASP.NET Core, C#, MySQL, REST APIs, JWT Auth, Bootstrap

07. SmartClass — Educomp

– Enterprise Educational Software

10,000+ schools • 2M+ daily students

- Modernized JavaFX classroom software across 10,000+ schools; implemented NEP-2020 competency evaluation engine and offline sync.

Tech Stack: JavaFX, Java, Desktop Architecture, NEP-2020 Framework, Offline Sync, Multimedia Engine

08. Nutrinest Ventures

[\[Live Site ↗\]](#)

– D2C Brand Commerce Platform

98/100 PageSpeed • +40% engagement

- Crafted luxury dark-mode visual interface with fluid micro-interactions, achieving a 98/100 Google PageSpeed score.

Tech Stack: Next.js, React, TypeScript, Tailwind CSS, Web Performance, SEO & Schema

EDUCATION

|                                                                         |                                |
|-------------------------------------------------------------------------|--------------------------------|
| Government Engineering College Ajmer • B.Tech in Information Technology | 2016 — 2020   Ajmer, Rajasthan |
| T P Verma College Narkatiyaganj • Intermediate                          | 2013 — 2015   Bihar, India     |
| High School Harinagar • Matric                                          | 2012   Bihar, India            |

KEY ACHIEVEMENTS

- Optimized web application load times by 30% through code splitting, lazy loading, and performance tuning.
- Reduced defects by 20% in frontend applications via debugging and best practices.
- 1st Prize in Chess at GEC Ajmer (2018 & 2019).
- Organized COMBAT-2K18/19 tech events.
