PROFILE SUMMARY

Full-Stack Developer with 4+ years of experience building scalable, high-performance web and mobile applications using **React.js**, **React Native**, **Next.js** and **Node.js**. Strong expertise in modern **JavaScript** ecosystems, **REST API** integration, state management, and performance optimization. Proven track record of delivering production-ready applications with clean, maintainable, and modular architecture. Experienced in **Firebase** services and **Google Maps** integration.

TECHNICAL SKILLS

Frontend & Core:

JavaScript TypeScript HTML5 CSS3 Bootstrap Tailwind CSS **React.js** **React Native** **Next.js**
Angular **Redux Toolkit**

Backend & APIs:

Node.js **Express.js** **RESTful APIs** Third-party API Integration

Databases & Other:

MongoDB MySQL Firebase Auth Firebase Realtime DB Firebase Cloud Messaging Google Maps API
Git/GitHub VS Code Postman Swagger Responsive Design Performance Optimization
Role-Based Authentication State Management Agile Methodologies

WORK EXPERIENCE

SPODS Technologies • Front-end Developer | React Native | React | Next

08/2025 — Present

- Developing and maintaining the Pick A Pro ecosystem including web platform, mobile application, admin dashboard, and Pick A Pro Partner app.
- Implemented role-based login and authorization to manage access for users, partners, and admin modules securely.
- Building cross-platform applications using React JS, **Next.js**, and **React Native** with reusable and modular component architecture.
- Using **Redux Toolkit** (RTK) for centralized state management and seamless data flow across web and mobile.
- Integrating **REST APIs** and third-party services to deliver real-time functionality and enhanced user experience.
- Developing dynamic dashboards with role-specific features, analytics, and business workflows.
- Optimizing performance, responsiveness, and code quality for scalable multi-device applications.
- Collaborating with backend and product teams to deliver user-centric and maintainable solutions.

NOYT INDIA • Software Developer

06/2025 — 08/2025

- Managed independent project modules, overseeing the full development cycle from initial concept to final delivery.
- Enhanced application functionality and user experience by integrating third-party APIs.

3FITECH COMMUNICATIONS PVT LTD • Software Developer

02/2025 — 06/2025

- Collaborated with cross-functional teams to define project requirements and deliver solutions that met business needs.
- Developed scalable and maintainable code, ensuring long-term stability of the software.

EDUMITRAM PVT LTD • Frontend Developer | React | User-Friendly Applications

11/2023 — 01/2025

- Developed user-friendly web interfaces for clients including Educomp Solutions Limited, EbixCash Pvt Ltd, and Hem Aunty Publications.
- Improved user satisfaction through intuitive UI/UX design and efficient API integrations.

SLOG Solutions Pvt. Ltd • Frontend Developer | React | User-Friendly Applications

04/2021 — 10/2023

- Reduced defects by 20% through systematic debugging in Angular/React apps.
- Trained students in Python and web development.

KEY PROJECTS

Pick A Pro – Multi-surface product ecosystem

React.js • **Next.js** • **React Native** • **Redux Toolkit** • **Node.js** • **Express** • **Firebase** • **Google Maps API**

- Built comprehensive platform (web, React Native mobile, admin dashboard, partner app) using React.js, Next.js, React Native, Redux Toolkit, Node.js/Express backend integration. Implemented Firebase Authentication for secure role-based access and Google Maps API for location services in booking/onboarding features. Added real-time updates, push notifications (Firebase), form validations, lazy loading, and analytics dashboards for users, services, and transactions.

UPBScan – Real-time network visibility

React · REST APIs · Charts · Blockchain · Web3

- Developed real-time blockchain explorer for UPB network to track transactions, wallets, tokens (UPB, USDT, UPBP), smart contracts, and validators.

Hem Aunty Publications – Complete digital storefront

React · Firebase · REST APIs · Tailwind CSS

- Created React-based bookstore platform with product listings, shopping cart, secure authentication (Firebase), and order processing via REST APIs.

SOCIETY — RADHEADDA – End-to-end social platform

Angular · ASP.NET Core · MySQL

- Built feature-rich web app with chat, consultations, profiles, events, gallery, and news using Angular frontend, ASP.NET Core API, and MySQL.

SmartClass — Educomp – 10,000+ school network

JavaFX · Educational Software · NEP-2020

- Revamped and expanded features within an established JavaFX-based educational software solution utilized by a wide network of over 10,000 schools. Implemented a grade system aligned with NEP-2020 guidelines, equipping educators with refined methods for assessing student performance.

Nutrinst Ventures – Optimized global experience

Web Development · Performance · Responsive UI

- Developed and maintained premium brand website. Delivered optimized and globally accessible user experience.

EDUCATION

Government Engineering College Ajmer · **B.Tech in Information Technology** — Ajmer, Rajasthan 2020

T P Verma College Narkatiyaganj · **Intermediate** — Bihar, India 2015

High School Harinagar · **Matric** — Bihar, India 2012

KEY ACHIEVEMENTS

- Optimized web application load times by 30% through code splitting, lazy loading, and performance tuning.
- Reduced defects by 20% in frontend applications via debugging and best practices.
- 1st Prize in Chess at GEC Ajmer (2018 & 2019).
- Organized COMBAT-2K18/19 tech events.
